Product SURFACE SANITIZER

Revision date 06 July 2017

Revision 1

Safety Data Sheet (SDS)

Section 1: Identification of the substance/preparation and of the company/undertaking

1.1 Product identifier

Product name SURFACE SANITIZER

Product no. 802

Synonyms, Trade names No information available.

1.2 Relevant identified uses of the substance or mixture and uses advised against

Identified uses Sanitiser.

Uses advised against No uses advised against are identified.

1.3 Details of the supplier of the safety data sheet

Supplier Kitchenmaster NI Ltd

11 Comber Road

Belfast BT8 8AN United Kingdom

Tel: 028 9081477 02890812881 sales@kitchenmaster-ni.com

1.4 Emergency telephone number

Contact person

Emergency telephone Emergency Telephone Number: 028 9081 4777 08:30 - 17:00 Monday to Thursday 08:30 -

16:30 Friday

Section 2: Hazards identification

2.1 Classification of the substance or mixture

Classification (EC 1272/2008)

Physical and chemical hazards Not classified Human health Not classified

Environment Aquatic Chronic 3 - H412

2.2 Label elements

Contains Not applicable

Label in accordance with (EC) no.

1272/2008

No pictogram required

Signal word No Signal Word

Hazard statements H412 Harmful to aquatic life with long lasting effects.

Precautionary statements Prevention

P273 Avoid release to the environment.

2.3 Other hazards

None known.

Section 3: Composition/identification of ingredients

3.1 Substance

Not applicable.

3.2 Mixtures

Name	Product identifier	Reg. EU 1272/2008	%
Alcohols,C12 -15, ethoxylated	CAS-No.: 68131-39-5 EC No.: 500-195-7	Aquatic Acute 1 - H400, Aquatic Chronic 4 - H413	0.1-1%
ETHANOL	CAS-No.: 64-17-5 EC No.: 200-578-6 REACH Reg No.: 01-2119457610-43-0037		0.1-1%
N-methyldidecylamine	CAS-No.: 7396-58-9 EC No.: 230-990-1	Acute Tox 4 - H302, Skin Irrit.2 - H315, Aquatic Acute 1 - H400, Aquatic Chronic 1 - H410	0.1-1%
propan-2-ol isopropyl alcohol isopropanol	CAS-No.: 67-63-0 EC No.: 200-661-7	Flam. Liq 2- H225, Eye Irrit.2A - H319, STOT SE 3 - H336	0.01-0.1%

The full text for all hazard statements are displayed in section 16.

Composition comments The data shown are in accordance with the latest EC Directives.

Section 4: First aid measures

4.1 Description of first aid measures

General information Provide general first aid, rest, warmth and fresh air. As a general rule, in case of doubt or if

> symptoms persist, always call a doctor. Seek medical attention for all burns and eye injuries, regardless how minor they may seem. First aid personnel must be aware of own risk during

rescue.

Inhalation Move the exposed person to fresh air at once. Get medical attention if any discomfort

continues. If breathing is difficult, provide oxygen. If not breathing, give artificial respiration

and get medical attention.

Do not induce vomiting. Thoroughly rinse the mouth with water. If vomiting occurs, keep Ingestion

head low so that stomach content doesn't enter the lungs. Get medical attention if discomfort

occurs. Never give anything by mouth to an unconscious person.

Skin contact Remove affected person from source of contamination. Remove contaminated clothing. Wash the skin immediately with water. Get medical attention if irritation develops or persists.

Avoid contaminating unaffected eye. Immediately flush eyes with plenty of water for at least

Eye contact 15 minutes, lifting lower and upper eyelids occasionally. Remove contact lenses if present

and easy to do so. Get prompt medical attention.

4.2 Most important symptoms and effects, both acute and delayed

General information The severity of the symptoms described will vary dependent on the concentration and the

length of exposure.

Inhalation No specific symptoms noted.

Ingestion Exposure to liquid product may cause irritation to mouth, throat and esophagus.

Skin contact Prolonged or repeated contact may be irritating to the skin.

Eye contact May cause eye irritation.

4.3 Indication of any immediate medical attention and special treatment needed

Treat symptomatically. Notes to the physician

Section 5: Fire-fighting measures

5.1 Extinguishing media

Extinguishing media Use fire-extinguishing media appropriate for surrounding materials.

Unsuitable extinguishing media No unsuitable extinguishing media.

5.2 Special hazards arising from the substance or mixture

Hazardous combustion products

Unusual fire & explosion hazards No unusual fire or explosion hazards noted.

Specific hazards

No specific hazards are identified for the product.

When heated, vapours/gases hazardous to health may be formed.

5.3 Advice for firefighters

Special fire fighting proceduresVentilate closed spaces before entering them. If possible, fight fire from protected position.

Keep up-wind to avoid fumes. Water spray should be used to cool containers.

Protective equipment for firefighters Fire-fighters should wear appropriate protective equipment and self-contained breathing

apparatus (SCBA) with a full face-piece operated in positive pressure mode. Clothing for fire-fighters (including helmets, protective boots and gloves) conforming to European standard

 ${\tt EN~469}$ will provide a basic level of protection for chemical incidents.

Section 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal precautions Wear protective clothing as described in Section 8 of this safety data sheet. Avoid inhalation

of vapours and contact with skin and eyes. Eliminate all sources of ignition. Provide adequate ventilation. In case of inadequate ventilation, use respiratory protection. Do not touch or

walk through spilled material. Wash hands after use.

For emergency responders Follow safe handling advice and personal protective equipment recommendations for normal

use of product.

6.2 Environmental precautions

Environmental precautions Prevent further leakage or spillage if safe to do so. Prevent entry to sewers and public

waters.

6.3 Methods and material for containment and cleaning up

Spill clean up methods Stop leak if possible without risk. Absorb spillage with non-combustible, absorbent material -

sand. In case of a large scale of spill, dyke area with sand to stop the spill spreading. Flush with plenty of water to clean spillage area. Floors may become slippery, avoid falls. Place

waste material into suitable labelled sealed containers for disposal.

6.4 Reference to other sections

Reference to other sections See section 1 for emergency contact. For personal protection, see section 8. For waste

disposal, see section 13.

Section 7: Handling and storage

7.1 Precautions for safe handling

Handling Use proper personal protection when handling (refer to Section 8). Avoid spilling, skin and

eye contact. Avoid inhalation of vapours. Read and follow manufacturer's recommendations. Keep away from heat, sparks and open flame. Do not mix with other chemicals. When using, do not eat, drink or smoke. Wash thoroughly after handling. Do not wear contact lenses.

7.2 Conditions for safe storage, including any incompatibilities

Storage precautions Keep upright, locked up and out of reach of children. Keep away from heat, sparks and open

flame. Store in tightly closed original container in a dry, cool and well-ventilated place.

Unspecified storage.

7.3 Specific end use(s)

Storage class

Specific end use(s)The identified uses for this product are detailed in Section 1.2. **Usage description**Use only according to directions. Replace and tighten cap after use.

Section 8: Exposure controls/Personal protection

8.1 Control parameters

Component	STD	TWA (8 Hrs)		STEL (15mins)		Notes
ETHANOL	OEL			1000 ppm		
ETHANOL	WEL	1000 ppm	1920 mg/m ³			

propan-2-ol isopropyl alcohol isopropanol	OEL	200 ppm		400 ppm		
propan-2-ol isopropyl alcohol isopropanol	WEL	400 ppm	999 mg/m ³	500 ppm	1250 mg/m ³	

Ingredient comments

WEL - Workplace Exposure Limits - EH40/2005 Workplace exposure limits.

OEL - Occulational Exposure Limit - Ireland, Occupational Exposure Limits 2016.

8.2 Exposure Controls

Protective equipment

Hand protection

Engineering measures Provide adequate ventilation, including appropriate local extraction, to ensure that the

defined occupational exposure limit is not exceeded.

Respiratory equipment Use respiratory protection as specified by an industrial hygienist or other qualified

professional if concentrations exceed the limits listed in Section 8. Suggested PPE:

Respirator with a vapour filter (EN 141). ABEK (EN 14387).

If the respirator is the sole means of protection, use a full-face supplied air respirator. Use respirators and components tested and approved under appropriate government standards such as CEN (EU). Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.

Where hand contact with the product may occur use gloves approved to relevant standards (e.g. Europe: EN374.) EU Directive 89/686/EEC. Selection of the glove material depends on consideration of the penetration times, rates of diffusion and degradation, and concentration

specific to the workplace. Gloves must be inspected prior to use.

Suggested material: Nitrile. Consult manufacturer for specific advice. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this

product.

Eye protection Wear safety goggles/face shield to prevent any possibility of eye contact. Use equipment for

eye protection tested and approved under appropriate government standards such as $\ensuremath{\mathsf{EN}}$

166(EU).

Other protection Wear appropriate clothing to prevent any possibility of skin contact. Personal protective

equipment for the body should be selected based on the task being performed and the risks

involved and should be approved by a specialist.

Hygiene measures DO NOT SMOKE IN WORK AREA! Wash hands at the end of each work shift and before

eating, smoking and using the toilet. Wash promptly if skin becomes wet or contaminated.

Promptly remove any clothing that becomes contaminated.

Process conditions Ensure that eye flushing systems and safety showers are located close by in the work place.

Section 9: Physical and chemical properties

9.1 Information on basic physical and chemical properties

AppearanceLiquid.ColourGreen. Clear.OdourCharacteristic.

Odour threshold - lower No information available.

Odour threshold - upper No information available.

pH-Value, Conc. Solution 7.00

pH-Value, Diluted solution No information available.

Melting point No information available.

Initial boiling point and boiling

range

No information available.

Flash point No information available.

Evaporation rate No information available.

Flammability state No information available.

Flammability limit - lower(%) No information available.

Flammability limit - upper(%) No information available.

Vapour pressure No information available.

Vapour density (air=1) No information available.

Relative density 0.999g/cm³ @ 20.00 °C

Bulk density No information available.

Solubility Soluble in water.

Decomposition temperature No information available.

Partition coefficient; n-

Octanol/Water

No information available.

Auto ignition temperature (°C) No information available.

Viscosity No information available.

Explosive properties Not classified as explosive.

Oxidising properties No information available.

9.2 Other information

Molecular weight No information available.

 $\begin{tabular}{ll} \textbf{Volatile organic compound} & No information available. \end{tabular}$

Other information None noted.

Section 10: Stability and reactivity

10.1 Reactivity

Reactivity May react with: Strong oxidizing agents, strong acids, and strong bases.

10.2 Chemical stability

Stability Stable under normal temperature conditions and recommended use.

10.3 Possibility of hazardous reactions

Hazardous reactions For information on hazardous reaction see section 10.1.

Hazardous polymerisationWill not polymerise.Polymerisation descriptionNot applicable.

10.4 Conditions to Avoid

Conditions to avoid Avoid storing in large quantities or for long periods of time. Heat, sparks, open flames,

temperature extremes and direct sunlight.

10.5 Incompatible materials

Materials to avoid Do not mix with other chemicals unless listed on directions. Avoid strong oxidising agents,

bases, strong acids.

10.6 Hazardous decomposition products

Hazardous decomposition products During fire, toxic gases (CO, CO2) are formed.

Section 11: Toxicological information

11.1 Information on toxicological effects

Toxicological information No toxicological information for the overall finished product.

Acute toxicity (Oral LD50) Alcohols, C12 -15, ethoxylated: (CAS 68131-39-5) > 5000 mg/kg Rat.

DIDECYLDIMETHYLAMMONIUM CHLORIDE: (CAS 7173-51-5) 84 mg/kg Rat.

Acute toxicity (Dermal LD50) Alcohols, C12 -15, ethoxylated: (CAS 68131-39-5) > 2000 mg/kg Rat.

Acute toxicity (Inhalation LD50) Alcohols, C12 -15, ethoxylated: (CAS 68131-39-5) > 1.6 mg/l (dust/mist) Rat - 4 hours.

Serious eye damage/irritation May cause temporary eye irritation.

Skin corrosion/irritation No information available.

Respiratory sensitisationNo information available.Skin sensitisationNo information available.

Germ cell mutagenicity No information available.

Carcinogenicity No information available.

Specific target organ toxicity - Single exposure:

STOT - Single exposure No information available.

Specific target organ toxicity - Repeated exposure:

STOT - Repeated exposure No information available.

Inhalation No specific symptoms noted.

Ingestion Exposure to liquid product may cause irritation to mouth, throat and esophagus.

Skin contact Prolonged or repeated contact may be irritating to the skin.

Eye contact May cause eye irritation.

Waste management When handling waste, consideration should be made to the safety precautions applying to

handling of the product.

Routes of entryNo information available. **Target organs**No target organs specified.

Aspiration hazards: No information available.

Reproductive toxicity: No information available.

Section 12: Ecological information

12.1 Toxicity

Acute toxicity - Fish Alcohols, C12 -15, ethoxylated: (CAS 68131-39-5) LC50: (96 hours) 0.59 mg/l Pleuronectes

platessa. DIDECYLDIMETHYLAMMONIUM CHLORIDE: (CAS 7173-51-5) LC50: (96 hours)

0.32 mg/l Lepomis macrochirus (Bluegill).

Acute toxicity - Aquatic invertebrates Alcohols, C12 -15, ethoxylated (CAS 68131-39-5) EC50: (48 hours) 0.14 mg/l Daphnia magna.

DIDECYLDIMETHYLAMMONIUM CHLORIDE (CAS 7173-51-5) EC50: (48 hours) 0.92 mg/l

Daphnia magna.

Acute toxicity - Aquatic plants Alcohols, C12 -15, ethoxylated (CAS 68131-39-5) EC50: (72 hours) 0.75 mg/l, Selenastrum

capricornutum.

Acute toxicity - Microorganisms
Chronic toxicity - Fish
Chronic toxicity - Aquatic
No information available.
No information available.

invertebrates

Chronic toxicity - Aquatic plants
Chronic toxicity - Microorganisms

No information available.
No information available.

EcotoxicityThe product contains a substance which is harmful to aquatic life with long lasting effects.

Eco toxilogical information No ecological toxicity available on the overall finished product.

12.2 Persistence and degradability

Degradability The degradability of the product has not been stated.

Biological oxygen demandNo information available. **Chemical oxygen demand**No information available.

12.3 Bioaccumulative potential

Bioaccumulative potential

No data available on bioaccumulation.

Bioacculmation factor Partition coefficient; nNo information available. No information available.

Octanol/Water

12.4 Mobility in soil

Mobility Soluble in water.

12.5 Results of PBT and vPvB assessment

Results of PBT and vPvB assessment The product does not contain any PBT or vPvB Substances.

12.6 Other adverse effects

Other adverse effects None known.

Section 13: Disposal considerations

Waste management When handling waste, consideration should be made to the safety precautions applying to

handling of the product.

13.1 Waste treatment methods

Disposal methods Dispose of waste and residues in accordance with local authority requirements.

Section 14: Transport information

14.1 UN number

UN no. (ADR) Not applicable.
UN no. (IMDG) Not applicable.
UN no. (IATA) Not applicable.

14.2 UN proper shipping name

ADR proper shipping name
IMDG proper shipping name
Not applicable.
IATA proper shipping name
Not applicable.

14.3 Transport hazard class(es)

ADR class Not applicable.

IMDG class Not applicable.

IATA class Not applicable.

Transport labels Not applicable

14.4 Packing group

ADR/RID/ADN packing group

IMDG packing group

IATA packing group

Not applicable.

Not applicable.

14.5 Environmental hazards

 No

14.6 Special precautions for user

EMS Not applicable.
Emergency action code Not applicable.
Hazard no. (ADR) Not applicable.
Tunnel restriction code Not applicable.

14.7 Transport in bulk according to annex II of MARPOL73/78 and the IBC code

Section 15: Regulatory information

15.1 Safety, health and environmental regulations/Legislation specific for the substance or mixture

EU legislation Regulation (EC) No 1272/2008 of the European Parliament and of the Council of 16

December 2008 on classification, labelling and packaging of substances and mixtures, amending and repealing Directives 67/548/EEC and 1999/45/EC, and amending Regulation (EC) No 1907/2006 with amendments. The UN Globally Harmonized System (GHS) Safety Data Sheet format (Annex IV) is implemented as Annex II of REACH EU No 453/2010 of 20th

May 2010 amending regulation (EC) No 1907/2006.

Approved code of practice 2016 Code of Practice for the Chemical Agents Regulations in accordance with section 60 of

the Safety, Health and Welfare at Work Act 2005 (No. 10 of 2005).

EH40/2005 Workplace exposure limits.

Chemical safety assessment No chemical safety assessment has been carried out.

Section 16: Other information

General information This Safety Data Sheet is in accordance with Reach Regulation (EC) No 453/2010.

Revision commentsThis is a first issue. **Revision date**06 July 2017

Revision 1

Safety data sheet status Approved.

Hazard statements in full

H413 May cause long lasting harmful effects to aquatic life.

H225 Highly flammable liquid and vapour.
H319 Causes serious eye irritation.
H302 Harmful if swallowed.
H315 Causes skin irritation.

H410 Very toxic to aquatic life with long lasting effects.
H314 Causes severe skin burns and eye damage.
H336 May cause drowsiness or dizziness.
H318 Causes serious eye damage.

H412 Harmful to aquatic life with long lasting effects.
